Cellular PVC Building Products **the First Choice for Builders and Home Owners...**

Cellular PVC is a perfect replacement for wood in building design and trim products. It will never rot, split or crack. It is better than clear and premium lumber. It is ideal for exterior design products and is perfect for trimboard, fascias, casing, soffits, columns, window trim, millwork, moulding and more. Talk to your Shoreline representative or visit us at ShorelineMillwork.com.

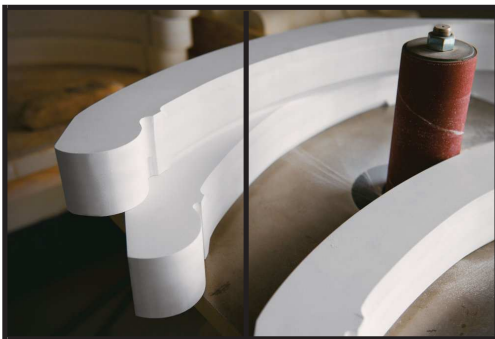

Our Building Products are virtually
Maintenance-Free

and install quickly, saving you labor.
Give your business the competitive edge.

Shoreline Millwork is your premiere source for exterior and interior Cellular PVC Products.

www.ShorelineMillwork.com

Cellular PVC will not swell, rot, crack, split or delaminate like wood, MDF, or MDO. It is lightweight, moisture resistant, resistant to insects and many chemicals, and less susceptible to warp.

Hand Crafted Excellence

Cellular PVC never needs paint, but can be painted. Paint adheres very well to Cellular PVC products. Check your paint manufacturer for extended warranty when using their products on Cellular PVC. Cellular PVC is as close to maintenance-free as you can get.
